I bypassed the oil injection after a couple of years when I had an issue with a leaking cap on the oil tank that allowed water to enter the tank after a huge rain storm that left almost two feet of water in the boat; after a 40 minute run to the inlet to go fishing I realized something was not right and had to idle home where I found out I had three inches of water under the oil in the tank.. Then a week later I found replacements Since I no longer have the old motor the carbs are available to anyone who wants them, I'm just too lazy to advertise them. 6e4e936fe3 [Download Epson 9900 Driver](#)
